

Standard Installation

Flammable

Warning

High Voltage

Hot Surface

ORION

YOKE WITH SLIPFITTER AND MOUNTING PLATE

TOOLS NEEDED:

Waterproof Wire Connectors

Adjustable Crescent Wrench

8mm Socket Wrench

Flat Head Screwdriver

TORX T27 Tamper Resistant 1/4" Bit

Mounting Hardware

INSTRUCTIONS PERTAINING TO A RISK OF FIRE, OR INJURY TO PERSONS IMPORTANT SAFETY INSTRUCTIONS

Lighted fixture is HOT!

WARNING - To reduce the risk of FIRE OR INJURY TO PERSONS:

Turn off/unplug and allow to cool before replacing lamp/LED. Fixture gets HOT quickly! Contact only switch/plug when turning on. Do not touch hot lens, guard, or enclosure. Keep fixture away from materials that may burn. Do not operate the luminaire fitting with a missing or damaged shield. Do not touch the source at any time. Use a soft cloth or gloves. Oil from skin may cause damage.

SAVE THESE INSTRUCTIONS

IMPORTANT SAFETY INFORMATION - READ, FOLLOW, AND SAVE ALL SAFETY AND INSTALLATION INSTRUCTIONS

- Product must be installed by a qualified person in a manner consistent with its intended use and in compliance with the National Electrical Code, Canadian Electrical Code, and all Local and Provincial Codes.
- Follow product label information and instructions.
- Qualified Personnel with appropriate personal protective equipment must perform all servicing of this product.
- Before wiring to power supply and during servicing, turn off and lock out power at fuse or circuit breaker before service.
- The use of accessory equipment not recommended by the manufacturer or installed contrary to instructions may cause an unsafe condition. The use of damaged components may cause an unsafe condition and void product warranty.
- Do not block light emanating from product in whole or part, as this may cause an unsafe condition.
- Never operate the fixture with missing or damaged lens. Lens must be cleaned on regular basis.
- Entire fixture may become extremely hot. Do not touch hot lens or fixture body.
- Replace LED assembly only with correct wattage and type of power supply appropriate for LED assembly.
- All gaskets, o-rings and sealing surfaces must be kept clean during installation and service; failure to do this may cause an unsafe condition and void product warranty.

IMPORTANT LISTINGS AND CERTIFICATIONS

- Suitable for wet locations

Standard Installation

1. Prepare for installation for mounting plate. Mounting plate has four (4) 9/16" dia. mounting holes (mounting hardware not included) in a 6" bolt circle.
2. Pole in mounting plate has 2-3/8" O.D. and is 5-1/4" tall.
3. Pull branch circuit wiring needed, through pole tenon.

4. Slipfitter comes installed to fixture. Loosen two (2) 3/8-16 square head screws with adjustable wrench, then slide slipfitter with attached yoke and fixture to installed pole tenon on mounting plate until fully seated. Secure with two (2) 3/8-16 square head screws.
 5. Open panel to wiring compartment in slipfitter by loosening four (4) #10-24 hex washer heads using adjustable crescent wrench, 8mm socket wrench, or flat head screwdriver.
- WIRING DIAGRAM**
6. Make watertight connections using waterproof wire connectors to connect incoming primary wiring to integral driver wiring as per NEC. Secondary side is factory wired.

7. Place connections inside wiring compartment in slipfitter. Close panel to wiring compartment in slipfitter by tightening four (4) #10-24 hex washer heads using adjustable crescent wrench, 8mm socket wrench, or flat head screwdriver.
8. To relamp: remove faceplate and louver by loosening four (4) tamper resistant screws using a TORX T27 socket (1/4" bit). Relamp as needed, then reverse install.
