PHYSICAL	MATERIALS STYLE BODY KNUCKLE CAP STEM LENS LAMP INSTALLATION HARDWARE FINISH WARRANTY CERTIFICATION & LISTING	Furnished in copper-free aluminum (6061-T6). B' style provides single bend, 180° radius from fixture to stem. Machined 'T' adapter enables independent fixture adjustment from a single mounting position. Unibody design is fully machined from solid billet and provides enclosed, water-proof wireway and heat sink to maximize lamp life. Integral knuckle for maximum mechanical strength. High temperature, silicon 'O' Ring provides water-tight seal. Standard 360SL provides biaxial source control with 360° horizontal rotation in addition to vertical adjustment. LOCK Knuckle is integral to the body and features an interior taper machined from solid billet and a second, reverse angle taper allowing full 180° vertical adjustment without the use of aim-limiting serrated teeth. High temperature, silicone 'O' Ring provides water-tight seal and compressive resistance to maintain fixture position. Design withstands 73 lbs. static load prior to movement for optical alignment with a ½" pipe thread for mounting. Fully machined and accommodates two (2) lens or louver media. Fully machined, 1" dia. with internal threads for maximum visual appeal. Available in configurable lengths to 48" maximum overall. Shock-resistant, tempered glass lens is factory adhered to fixture cap and provides hermetically sealed optical compartment. For use with 20W maximum, MR11 lamp. Halogen sourced by others. 5" dia., machined canopy with stainless steel universal mounting ring permits mounting to 4' octagonal junction box. Junction box installation must be designed to hold full fulcrum weight of fixture (junction box and gasket by others). Tamper-resistant, stainless steel hardware. LOCK aiming screw is black oxide treated for additional corrosion resistance. StarGuard, our 15-stage chromate-free process cleans and conversion coats aluminum components prior to application of Class 'A' TGIC polyester powder coating and is RoHS compliant. Brass components are available in powder coat or handcrafted metal finish. Stainless steel components are only available in handcrafted metal finish. 5-year limited warranty. UL Listed.
